C. P. EMERSON,

Attorney and Counsellor at Law, and Solicitor in Chancery,

DECATUR, MACON CO. ILL.

Jan. 28, 1842? 23-1y

DRUGS & MEDICINES—The undersigned

have just received their spring stock of fresh Drugs & Medicines, which they offer for sale on reasonable terms. They would respectfully invite country merchants, physicians, and others, to call and examine, as well before purchasing elsewhere, as they are confident that they can not be afforded in this market. BROOKIE & BUSH.

April 12 Sm sale of agent.

TOPIC MEDICINES—Just received,

per Cincinnati, Hudson river, and ground peppermint, Lavender, Rosemary, Cinnamon, Cloves, Nutmegs, Mace, Cassia, Ginger, Saffron, Opium, Camphor, Castile Soap, Indigo, Madder, Alum, Copperas, Blue Vitriol, Rochelle salts, Epsom salts, Glauber salts, Saltpetre, Sal Soda, Sal Ammoniac, Arrow root, Starch, Blue stone, Lunar caustic, Tartaric acid, Citric acid, Prussiate potash, Chromate potash, Bi-chromate potash, Iodine, Iodide potash, Cream tartar, Tartar emetic, Sulphate quinine, Sulphate morphine, Sulphate strychnine, Sulphate iron, Sulphate zinc, Sulphate copper, Sulphate magnesia, Sulphate soda, Sulphate potash, Sulphate alumina, Sulphate manganese, Nitrate silver, Nitrate potash, Nitrate soda, Nitrate bismuth, Nitrate mercury, Nitrate copper, Nitrate zinc, Nitrate iron, Nitrate manganese, Nitrate potash and soda, Nitrate alumina, Nitrate magnesia, Nitrate strychnine, Nitrate morphine, Nitrate quinine, Muriate ammonia, Muriate potash, Muriate soda, Muriate iron, Muriate zinc, Muriate copper, Muriate manganese, Muriate alumina, Muriate magnesia, Muriate strychnine, Muriate morphine, Muriate quinine, Muriate potash and soda, Muriate potash and iron, Muriate potash and copper, Muriate potash and zinc, Muriate potash and manganese, Muriate potash and alumina, Muriate potash and magnesia, Muriate potash and strychnine, Muriate potash and morphine, Muriate potash and quinine, Muriate potash and soda and iron, Muriate potash and soda and copper, Muriate potash and soda and zinc, Muriate potash and soda and manganese, Muriate potash and soda and alumina, Muriate potash and soda and magnesia, Muriate potash and soda and strychnine, Muriate potash and soda and morphine, Muriate potash and soda and quinine, Muriate potash and soda and iron and copper, Muriate potash and soda and iron and zinc, Muriate potash and soda and iron and manganese, Muriate potash and soda and iron and alumina, Muriate potash and soda and iron and magnesia, Muriate potash and soda and iron and strychnine, Muriate potash and soda and iron and morphine, Muriate potash and soda and iron and quinine, Muriate potash and soda and copper and zinc, Muriate potash and soda and copper and manganese, Muriate potash and soda and copper and alumina, Muriate potash and soda and copper and magnesia, Muriate potash and soda and copper and strychnine, Muriate potash and soda and copper and morphine, Muriate potash and soda and copper and quinine, Muriate potash and soda and zinc and manganese, Muriate potash and soda and zinc and alumina, Muriate potash and soda and zinc and magnesia, Muriate potash and soda and zinc and strychnine, Muriate potash and soda and zinc and morphine, Muriate potash and soda and zinc and quinine, Muriate potash and soda and manganese and alumina, Muriate potash and soda and manganese and magnesia, Muriate potash and soda and manganese and strychnine, Muriate potash and soda and manganese and morphine, Muriate potash and soda and manganese and quinine, Muriate potash and soda and alumina and magnesia, Muriate potash and soda and alumina and strychnine, Muriate potash and soda and alumina and morphine, Muriate potash and soda and alumina and quinine, Muriate potash and soda and magnesia and strychnine, Muriate potash and soda and magnesia and morphine, Muriate potash and soda and magnesia and quinine, Muriate potash and soda and strychnine and morphine, Muriate potash and soda and strychnine and quinine, Muriate potash and soda and morphine and quinine, Muriate potash and soda and iron and copper and zinc, Muriate potash and soda and iron and copper and manganese, Muriate potash and soda and iron and copper and alumina, Muriate potash and soda and iron and copper and magnesia, Muriate potash and soda and iron and copper and strychnine, Muriate potash and soda and iron and copper and morphine, Muriate potash and soda and iron and copper and quinine, Muriate potash and soda and iron and zinc and manganese, Muriate potash and soda and iron and zinc and alumina, Muriate potash and soda and iron and zinc and magnesia, Muriate potash and soda and iron and zinc and strychnine, Muriate potash and soda and iron and zinc and morphine, Muriate potash and soda and iron and zinc and quinine, Muriate potash and soda and iron and manganese and alumina, Muriate potash and soda and iron and manganese and magnesia, Muriate potash and soda and iron and manganese and strychnine, Muriate potash and soda and iron and manganese and morphine, Muriate potash and soda and iron and manganese and quinine, Muriate potash and soda and iron and alumina and magnesia, Muriate potash and soda and iron and alumina and strychnine, Muriate potash and soda and iron and alumina and morphine, Muriate potash and soda and iron and alumina and quinine, Muriate potash and soda and iron and magnesia and strychnine, Muriate potash and soda and iron and magnesia and morphine, Muriate potash and soda and iron and magnesia and quinine, Muriate potash and soda and iron and strychnine and morphine, Muriate potash and soda and iron and strychnine and quinine, Muriate potash and soda and iron and morphine and quinine, Muriate potash and soda and copper and zinc and manganese, Muriate potash and soda and copper and zinc and alumina, Muriate potash and soda and copper and zinc and magnesia, Muriate potash and soda and copper and zinc and strychnine, Muriate potash and soda and copper and zinc and morphine, Muriate potash and soda and copper and zinc and quinine, Muriate potash and soda and copper and manganese and alumina, Muriate potash and soda and copper and manganese and magnesia, Muriate potash and soda and copper and manganese and strychnine, Muriate potash and soda and copper and manganese and morphine, Muriate potash and soda and copper and manganese and quinine, Muriate potash and soda and copper and alumina and magnesia, Muriate potash and soda and copper and alumina and strychnine, Muriate potash and soda and copper and alumina and morphine, Muriate potash and soda and copper and alumina and quinine, Muriate potash and soda and copper and magnesia and strychnine, Muriate potash and soda and copper and magnesia and morphine, Muriate potash and soda and copper and magnesia and quinine, Muriate potash and soda and copper and strychnine and morphine, Muriate potash and soda and copper and strychnine and quinine, Muriate potash and soda and copper and morphine and quinine, Muriate potash and soda and zinc and manganese and alumina, Muriate potash and soda and zinc and manganese and magnesia, Muriate potash and soda and zinc and manganese and strychnine, Muriate potash and soda and zinc and manganese and morphine, Muriate potash and soda and zinc and manganese and quinine, Muriate potash and soda and zinc and alumina and magnesia, Muriate potash and soda and zinc and alumina and strychnine, Muriate potash and soda and zinc and alumina and morphine, Muriate potash and soda and zinc and alumina and quinine, Muriate potash and soda and zinc and magnesia and strychnine, Muriate potash and soda and zinc and magnesia and morphine, Muriate potash and soda and zinc and magnesia and quinine, Muriate potash and soda and zinc and strychnine and morphine, Muriate potash and soda and zinc and strychnine and quinine, Muriate potash and soda and zinc and morphine and quinine, Muriate potash and soda and manganese and alumina and magnesia, Muriate potash and soda and manganese and alumina and strychnine, Muriate potash and soda and manganese and alumina and morphine, Muriate potash and soda and manganese and alumina and quinine, Muriate potash and soda and manganese and magnesia and strychnine, Muriate potash and soda and manganese and magnesia and morphine, Muriate potash and soda and manganese and magnesia and quinine, Muriate potash and soda and manganese and strychnine and morphine, Muriate potash and soda and manganese and strychnine and quinine, Muriate potash and soda and manganese and morphine and quinine, Muriate potash and soda and alumina and magnesia and strychnine, Muriate potash and soda and alumina and magnesia and morphine, Muriate potash and soda and alumina and magnesia and quinine, Muriate potash and soda and alumina and strychnine and morphine, Muriate potash and soda and alumina and strychnine and quinine, Muriate potash and soda and alumina and morphine and quinine, Muriate potash and soda and magnesia and strychnine and morphine, Muriate potash and soda and magnesia and strychnine and quinine, Muriate potash and soda and magnesia and morphine and quinine, Muriate potash and soda and strychnine and morphine and quinine, Muriate potash and soda and iron and copper and zinc and manganese, Muriate potash and soda and iron and copper and zinc and alumina, Muriate potash and soda and iron and copper and zinc and magnesia, Muriate potash and soda and iron and copper and zinc and strychnine, Muriate potash and soda and iron and copper and zinc and morphine, Muriate potash and soda and iron and copper and zinc and quinine, Muriate potash and soda and iron and copper and manganese and alumina, Muriate potash and soda and iron and copper and manganese and magnesia, Muriate potash and soda and iron and copper and manganese and strychnine, Muriate potash and soda and iron and copper and manganese and morphine, Muriate potash and soda and iron and copper and manganese and quinine, Muriate potash and soda and iron and copper and alumina and magnesia, Muriate potash and soda and iron and copper and alumina and strychnine, Muriate potash and soda and iron and copper and alumina and morphine, Muriate potash and soda and iron and copper and alumina and quinine, Muriate potash and soda and iron and copper and magnesia and strychnine, Muriate potash and soda and iron and copper and magnesia and morphine, Muriate potash and soda and iron and copper and magnesia and quinine, Muriate potash and soda and iron and copper and strychnine and morphine, Muriate potash and soda and iron and copper and strychnine and quinine, Muriate potash and soda and iron and copper and morphine and quinine, Muriate potash and soda and iron and zinc and manganese and alumina, Muriate potash and soda and iron and zinc and manganese and magnesia, Muriate potash and soda and iron and zinc and manganese and strychnine, Muriate potash and soda and iron and zinc and manganese and morphine, Muriate potash and soda and iron and zinc and manganese and quinine, Muriate potash and soda and iron and zinc and alumina and magnesia, Muriate potash and soda and iron and zinc and alumina and strychnine, Muriate potash and soda and iron and zinc and alumina and morphine, Muriate potash and soda and iron and zinc and alumina and quinine, Muriate potash and soda and iron and zinc and magnesia and strychnine, Muriate potash and soda and iron and zinc and magnesia and morphine, Muriate potash and soda and iron and zinc and magnesia and quinine, Muriate potash and soda and iron and zinc and strychnine and morphine, Muriate potash and soda and iron and zinc and strychnine and quinine, Muriate potash and soda and iron and zinc and morphine and quinine, Muriate potash and soda and copper and zinc and manganese and alumina, Muriate potash and soda and copper and zinc and manganese and magnesia, Muriate potash and soda and copper and zinc and manganese and strychnine, Muriate potash and soda and copper and zinc and manganese and morphine, Muriate potash and soda and copper and zinc and manganese and quinine, Muriate potash and soda and copper and zinc and alumina and magnesia, Muriate potash and soda and copper and zinc and alumina and strychnine, Muriate potash and soda and copper and zinc and alumina and morphine, Muriate potash and soda and copper and zinc and alumina and quinine, Muriate potash and soda and copper and zinc and magnesia and strychnine, Muriate potash and soda and copper and zinc and magnesia and morphine, Muriate potash and soda and copper and zinc and magnesia and quinine, Muriate potash and soda and copper and zinc and strychnine and morphine, Muriate potash and soda and copper and zinc and strychnine and quinine, Muriate potash and soda and copper and zinc and morphine and quinine, Muriate potash and soda and copper and manganese and alumina and magnesia, Muriate potash and soda and copper and manganese and alumina and strychnine, Muriate potash and soda and copper and manganese and alumina and morphine, Muriate potash and soda and copper and manganese and alumina and quinine, Muriate potash and soda and copper and manganese and magnesia and strychnine, Muriate potash and soda and copper and manganese and magnesia and morphine, Muriate potash and soda and copper and manganese and magnesia and quinine, Muriate potash and soda and copper and manganese and strychnine and morphine, Muriate potash and soda and copper and manganese and strychnine and quinine, Muriate potash and soda and copper and manganese and morphine and quinine, Muriate potash and soda and copper and alumina and magnesia and strychnine, Muriate potash and soda and copper and alumina and magnesia and morphine, Muriate potash and soda and copper and alumina and magnesia and quinine, Muriate potash and soda and copper and alumina and strychnine and morphine, Muriate potash and soda and copper and alumina and strychnine and quinine, Muriate potash and soda and copper and alumina and morphine and quinine, Muriate potash and soda and copper and magnesia and strychnine and morphine, Muriate potash and soda and copper and magnesia and strychnine and quinine, Muriate potash and soda and copper and magnesia and morphine and quinine, Muriate potash and soda and copper and strychnine and morphine and quinine, Muriate potash and soda and zinc and manganese and alumina and magnesia, Muriate potash and soda and zinc and manganese and alumina and strychnine, Muriate potash and soda and zinc and manganese and alumina and morphine, Muriate potash and soda and zinc and manganese and alumina and quinine, Muriate potash and soda and zinc and manganese and magnesia and strychnine, Muriate potash and soda and zinc and manganese and magnesia and morphine, Muriate potash and soda and zinc and manganese and magnesia and quinine, Muriate potash and soda and zinc and manganese and strychnine and morphine, Muriate potash and soda and zinc and manganese and strychnine and quinine, Muriate potash and soda and zinc and manganese and morphine and quinine, Muriate potash and soda and zinc and alumina and magnesia and strychnine, Muriate potash and soda and zinc and alumina and magnesia and morphine, Muriate potash and soda and zinc and alumina and magnesia and quinine, Muriate potash and soda and zinc and alumina and strychnine and morphine, Muriate potash and soda and zinc and alumina and strychnine and quinine, Muriate potash and soda and zinc and alumina and morphine and quinine, Muriate potash and soda and zinc and magnesia and strychnine and morphine, Muriate potash and soda and zinc and magnesia and strychnine and quinine, Muriate potash and soda and zinc and magnesia and morphine and quinine, Muriate potash and soda and zinc and strychnine and morphine and quinine, Muriate potash and soda and manganese and alumina and magnesia and strychnine, Muriate potash and soda and manganese and alumina and magnesia and morphine, Muriate potash and soda and manganese and alumina and magnesia and quinine, Muriate potash and soda and manganese and alumina and strychnine and morphine, Muriate potash and soda and manganese and alumina and strychnine and quinine, Muriate potash and soda and manganese and alumina and morphine and quinine, Muriate potash and soda and manganese and magnesia and strychnine and morphine, Muriate potash and soda and manganese and magnesia and strychnine and quinine, Muriate potash and soda and manganese and magnesia and morphine and quinine, Muriate potash and soda and manganese and strychnine and morphine and quinine, Muriate potash and soda and alumina and magnesia and strychnine and morphine, Muriate potash and soda and alumina and magnesia and strychnine and quinine, Muriate potash and soda and alumina and magnesia and morphine and quinine, Muriate potash and soda and alumina and strychnine and morphine and quinine, Muriate potash and soda and magnesia and strychnine and morphine and quinine, Muriate potash and soda and iron and copper and zinc and manganese and alumina, State Register.

SPRINGFIELD:

Friday, September 9, 1842.

Speaker of the House of Representatives.

NEWTON CRAIG of Morgan Co. and SAMUEL HACKNEY of Sangamon have been nominated by several democratic papers as suitable candidates for the office of Speaker of the House of Representatives. A letter of the gentlemen possess the ability and acquirements requisite for the station.

The election of either would no doubt give entire satisfaction to the party.

We would add to the above the name of CO. JOHN A. M'CLERNAND of Shawneetown County, as a gentleman every way qualified to fill the important station of Speaker of the House. The great battle of principle in which he fought in 1839, in defence of the Constitution, entitles McClernand to the gratitude of the whole State Secretary of State, will not cease to be remembered. His appointment as Auditor of Public Treasurer, in these late proscriptions, were followed by selfish motives. Such an appointment is extremely unjust, and is manifestly not in the interest of the people. It is time to put an end to the frauds of the victory obtained in the memorable contest. The people have at last determined to be defrauded of the fruits of their victory no longer. They have taken the matter into their own hands. If the choice of the Democratic Convention for Governor, should have known that the State Treasury could be furnished with specie in time to meet the July interest, we have no difficulty, now in office. The present Governor, Auditor and Treasurer, have all been elected by the depreciated currency heretofore in circulation. None of them can benefit from paid, during the remainder of their official terms. The benefit will accrue to their successors, not to them.

The Board of Canvassers, who made the appointment not made what the revenue for 1841 was collected? The answer is, that it was less than the revenue of 1840 had not been collected, or when the Bank went down as a fiscal agent of the State. It was not known, it would have been extremely unjust to have seized the property, and sold it for specie, when the people had given it in on State Bank paper, because the remedy would have been ruinous to pay those taxes in specie. By issuing the process, suspension was a necessary consequence.

The argument of the Herald, that the Pre-emption is unjust to the Bank, in one that we should not be surprised to see. The object of the law is to prevent the State from being a speculator in the Bank, so that it shall not be the Bank, so that it shall find the State Treasury for the support of Government. We apprehend that the Bank has long been the State's share already in diverting the people of the Bank from the loan of Congress instead upon the Auditor's warrants for specie upon the New York eastern loan for the last three years, so what is the loss to be sustained by the payment of hundreds of thousands. If every share of individual stock was purchased in the State by law, the State would not then be half so far ahead of the Bank, as the Bank now is ahead of the State.

PEACHES.—Col. OAKLEY of Trenton Tazewell county, presented us last week with a basket of peaches, of the kind called the Heath cling, of the finest we ever saw. Among the juicy and exquisite fruits that we have had the pleasure of consuming this season, they are unsurpassed. This is the largest peach, we believe, ever seen cured in this vicinity. Some of them were as large and better than any peach.

Who Tax on Tea and Coffee.

On the 3rd August, the Tariff Bill being under consideration in the Senate, Mr. Mc Duffie moved an amendment to include Tea and Coffee among the free articles. The motion was taken upon the question, striking Tea and Coffee free articles, and decided in the negative as follows:

YEAS—Messrs. Allen, Bagby, Benton, Buchanan, Calhoun, Fulton, Grundy, Kane, Lumpkin, McDuffie, Merry, Sevier, Smith of Ct., Sturgeon, Tappan, Walker, Wall, Williams, Wilcox, Woodbury, Yorke—20.

NAYS—Messrs. Archer, Barrow, Bates, Bayard, Choate, Clayton, Conrad, Crittenden, Davis, Dayton, Evans, Huntington, Kerr, Morgan, Morris, Phelps, Porter, Preston, Rives, Simmons, Smith of Ia. Southard, Tallmadge, White, Woodbridge—27. All whigs.

Indiana Election.

The impression that the election in Indiana is not a test of the election of a United States Senator and Governor, is a mistake. The Senator, the present town senator from Indiana. For some time it has been uncertain which party had the majority in the Legislature, and it is now ascertained that the democrats are able to elect a Democratic Senator. The Indiana State Journal of August 20, contains the following remarks, since paragraph on this point:

"Let Democrats look to the fair and final review of the results of the late contest, we assure our friends abroad, that there is not a particle of doubt but the Democrats will be happy able to elect a U. S. Senator in the person of Mr. Smith. Indeed, the Federalists give up the matter, and are now using all their efforts to create division among our friends. They will not succeed in the undertaking. Rives for Governor, and Rives for a Democratic U. S. Senator!"

Glory.—The Bentley times announces the festivity here of Gallatin's victory, celebrated by the Alligan War, down to the list of March last, at 18,000, and the end of the war to cost at 65, at 2,75,000,000.

Century Plant.—One of these extraordinary plants, that blooms but once in a hundred years, is being exhibited in Albany and another in Philadelphia.

MARRIED,—On Thursday, July 14th by Rev. F. Springer, Mr. Jas A. Hughes to Miss Mary Ann Barnes, both of Sangamon co. Ill.

The collection of the State revenue in specie funds.

During the last six weeks of the scarce effect of the Register from the seat of Government, an important proclamation emanated from the Executive department of the State, prohibiting the reception of State Bank paper for more for the year 1842. It this proclamation had also published the Treasurer of the State at the Bank of Illinois at Shawneetown, it would, in our opinion, have been a timely one. Specie is now the only currency which can be taken by any one. Who can be more certain of this than the Auditor, Treasurer and Secretary of State, who have to receive and disburse the revenue which has been collected by the State, and to see that the law requires shall be paid over. As to the Auditor and Treasurer, we do not know, of course, if such be the case, the Legislature could not have made a more judicious provision for the collection of the revenue, than the one adopted of having the specie funds collected. For ourselves, we believe the Bank of Illinois will be ready, and that the Representatives coming fresh from the people are the proper judges.

Should the Bank not be ready, we can be expected, have nominated the Governor, Auditor, and Treasurer, would direct the adopting and issuing this proclamation; and insist upon proper arrangements being made with the Bank of Illinois for the performance of this simple act of duty. Three months have been wasted. They are amused of having passed the proclamation for the purpose of increasing the credit of the Bank when, in fact, none of the State Government, Executive and Judicial, has been in operation. Whether the Bank will be ready by our State March has when the State Bank closed and will pay the liabilities of the State, or of fifty cents on every dollar of its issues by a circulation, three of the counties above and ninety pounds. The same may be said of the State Bank paper, into the hands of the officers of the State, by the laws of the Legislature, would they have any more than their just value? Certainly not. Every one of the existing sentiment know full well that the proclamation cannot even operate as a check upon the public officers in office, because, before the Treasury can be enjoined by a superior power, the revenue will have been collected, and officers will expire.

Should the Bank of Illinois, next year, the public officers of this State (Executive and Judicial) have been compelled to receive Bank paper in payment of the dues of the State, to the amount of fifty cents on every dollar of its issues by a circulation. None

Dinner to Gov. Ford.

The Governor-elect of Illinois, Judge Ford, upon an occasional visit to Quincy a week or two ago, had the honor of a public dinner tendered to him by his Democratic fellow citizens of that place. The dinner took place on Saturday the 27th of August. Among the invited guests was Gov. Carlin. The Quincy Herald says:

A public dinner was given in Judge Ford, the City Hotel on Saturday, at which about eighty persons were present. It was conducted in accordance with the usual custom on such occasions, with the exception of a considerable degree of republican and open radicalism, which was not to be expected in the highest circle. The fourth credit cannot be given on the host, Mr. Mullis, for the manner in which he conducted the sentiment and elegance with which the tables were arranged, and the attention and complaisance of the waiters. We have never seen a better table, or better fare, at a public dinner, than was enjoy a great deal. There was no one to dissatisfied or grumble at the fare, and all in attendance appeared to be perfectly at home in the enjoyment of comfort and accommodation at the table. The proceedings, toasts, &c., will be found in another column.

The following are the regular toasts drank on the occasion:

1. *State.*—Though squeezed with numerous incisions, the genius and enterprise of her citizens will heal the wounds and reanimate the countenance, till one long make her stand forth disenthralled, without fear of the scissors or the knife to oppress or trifle.

2. *The Judiciary*—In the purity of the judiciary the people have as purely protecting the weak, and punishing the wicked, as the sun gives us light.

3. *The Union*—Secure as guaranteed to us by the constitution.

4. *Our Legislators*—Called to act on an important event in the history of our State, may they their duties faithfully, and with the wisdom, for upon them depends the weal or woe of one beloved State, perhaps for all future time.

5. *The People*—Their 'voice second thought' always right.

6. *The Constitution of the United States*—Sacred to us as a concession, and dear to us as the bond of our Union, which can only be by piety which cherished him to possess it.

7. *The Sovereign of the United States*—The good magnet to direct the ship of State, would serve to pretty expect on to wisdom most good would result to the nation from his election.

8. *Our Guest*—Allowing upon the bosom of every ocean the 'star-spangled banner,' may gaining for him in the proud land that gave him rules the wave."

9. *Our Country*—The tuberant of our nation's prosperity. Confusion to the head and the heart of any one who would lay its silent hands upon it.

10. *Our Country*—Tried in two contests with the untold-in "mixture of its evils," and never found wanting.

11. *The Gubernatorial Chair*—May it be never be filled by an Ultra Federalist.

12. *Our Guest—Mr. Thomas Ford*—Elected by the people of the State, the choice of Democracy—the pride of our State. May his administration be characterized by the same virtues that have distinguished.

The Governor responded to the above toast, in a brief and appropriate manner, and concluded by giving the following sentiments:

[Gov. Carlin rose and thanked his friends for their generous sentiment, and concluded with the following:

The State of Illinois—Rewarded in her republican principles during the present year—may she never forget the principles that flourish within the herd.

12. *The People*—Sovereign. The Quincy Herald adds and efficient in the cause of Democracy, and evidence in addition to all the people's rights.

13. *Self Education*—The same purport to greatness. Women a *Ford* evidence of it like this.

14. *The Ladies*—God bless them as they bless us.

Whiggery Illustrated—Great Reforms.

The present Congress assembled with the following proportion of Whigs and Democrats—39 whigs—one vacancy—28 Democrats—39 whigs—one vacancy—28 Democrats. Majority of the whole number, showing a whig majority in the House, of eleven. At the last session, the number of Senators and Representatives assembled to Congress was 242, a majority of one—by the Speaker 8.36. Accordingly, the whig majority of eleven has been reduced to one and three hundred and twelve dollars each. The great majority of the Democrats came together under the solemn pledge to "reduce" expenditures, they had received in the government. Now let us see what reforms they have effected. First, they abolish the "Secretaryship" of the "Treasury," the only measure of "reform" passed, has been under consideration, and the result has been \$6,000.00. The office of two or three little boys to be employed as pages, deemed that the owners of carts and of wood, for the public corporation, could shall be good per diem instead of a per annum, and one or two other offices about equal in that of the "pages," the amount of which is 6 per cent. Now, as the whigs have abolished—the system of money to support the whole of the navy—the army—and about 400 dollars per session, and so it remains—all, this will be a saving of the whole of the whole or more will eventually be expended to procure "reforms!" Whether the whigs will have these reforms rest the people—following the items involved in the "reformchestnut bill to be thirty days, and we think as the end will prove us to fall short of the salaries of the members of Congress alone session of the present Congress. *Two hundred and sixty dollars!* to say nothing of the other expenses attending the present session of Congress, which are enormous.

We ask the whigs what they mean by "reforms" in those with the *profession* and the promise of these same whigs, just before the election.

[Hartford Times.

Some of the whig papers say that Mr. Clay has always had his own security with him in politics, Gen. Jackson has universally had his approval to him; and Mr. Van Buren entitles the former to the praise and better reas. Do they not receive the emigrants, that a prophet is not without honor save in his own country and among his own kindred.

False proceedings of a meeting.

Below we give the proceedings of a meeting, so headed in by the secretary, but we are ashamed by many gentlemen who were present to pronounce the statement that the proceedings and resolutions introduced by Dr. Berry passed, to be *false*. When the vote was about to be taken the meeting was turned into ridicule and broke up in a row without the question being put. The meeting in question, now lays before us as our readers, it is most unworthy [illegible] of the community. The people can never come to be in a good currency, while they are willing to support such country editors as these. We hope all such expeditions will be abandoned.

Proceedings of the Public Meeting.

SPRINGFIELD, Ill., Sept. 3, 1842.

My opinion has been asked in relation to certain proceedings in the county meeting held on the 29th ult. and as I deem it a public importance, I deem it not inappropriate to give my views through the medium of the press. At the last March term of the county commissioners' court of Sangamon, that court authorized the purchase of an additional piece of county orders, and the levy and collection of one dollar tithe. The piece of ground purchased was for the use of the county as a poor farm. The amount of money which the court was ready for the paper upon the terms given in a certain deed to be executed. One of those blanks or in my possession, was presented, by the agent of the owner. Many of incoming such bills has been selected. The deed is in the following words, and is as follows:

Know all by presents, number of pounds, or currency, five in the State, without control have from the county of Sangamon, and State aforesaid, for the consideration, sum, or thing, bill of certificates, or money, or currency, or other consideration, equivalent in lieu of money, or other currency, and to be paid by the county commissioners' court of said county, hereinafter mentioned, the receipt whereof is hereby acknowledged, shall pay a less tax on the following described tract of land, to wit: [illegible] per centum ownership over.

It is very obvious to any mind, that the issuing of such county orders or one dollar bills, is a direct violation of the first section of the section of the section of our present laws—which declares that "no bank or any corporation, association or individual, shall issue any bills, bills, in circulation "as, and in lieu of money, or currency, and that all their over the natures of the county commissioners or any other person in their employ, whether officers or any other person in their employ, whether officers or any other person in their employ, whether officers

State of Illinois, Sangamon County—ss.

In the County Court, November Term, 1862.

In Chancery.

Stephen Logan,
against
Alexander Gamble, Andrew W. Gamble, Reynolds Gamble, and James Morris.

IT appearing by affidavit on file in the Clerk's office of the County Court of Sangamon county, aforesaid, in the above entitled cause, that the defendants, Alexander Gamble, Andrew W. Gamble, Jane W. Gamble, and James Morris are not residents of this State: On motion of Complainant's Solicitor, it is ordered that the said defendants be and appear in this cause on the first day of the next term of the county of this cause, and in default thereof, and that the same will be heard and decreed according to the prayer thereof, this cause will be heard and decreed according to the prayer thereof, this cause will be heard and decreed according to the prayer thereof, this cause
